

NOTICE OF AVAILABILITY  
AND  
NOTICE TO ADOPT A MITIGATED NEGATIVE DECLARATION

BOARD OF DIRECTORS MEETING  
BORREGO WATER DISTRICT

Indian Head Reservoir and Water Service Infrastructure Improvements  
Project includes construction of Reservoir, Well Site & Pipeline starting NW  
of the intersection of Anza Park Trail and Coyote Way and continuing south to Big Horn Road.  
Borrego Springs, CA 92004.

NOTICE IS HEREBY GIVEN that the Board of Directors of Borrego Water District will hold a public hearing at its meeting of February 24, 2010. The Board of Directors meeting begins at 9:15 a.m. in the Board Room at Borrego Water District, 806 Palm Canyon Drive, Borrego Springs, CA 92004.

The purpose of the hearing is to consider an Environmental Assessment Mitigated Negative Declaration relative to installation of water service improvements for the unincorporated community of Borrego Springs operated by Borrego Water District.

The project proposes construction and operation of one 750,000-gallon water reservoir tank, identified as Indian Head Reservoir Tank No. 2, to be situated in a northwestern portion of the unincorporated community of Borrego Springs. Additionally proposed is the construction of one water well site and installation of approximately 1.67 miles of 12-inch pipeline. The proposed project is expected to enhance the domestic water service for existing and entitled land uses in the surrounding area.

The proposed water Tank No. 2 will be constructed at an existing reservoir site to be operated and maintained by the Borrego Water District. The fenced area presently contains one existing reservoir tank. Tank No. 2 will be placed equal to that of the existing reservoir. The proposed water well site will be approximately 3 miles southeast of the reservoir site, north of Big Horn Road and west of Borrego Springs Road. The pipeline will provide connectivity with the existing pipeline infrastructure from the reservoir tank.

An Initial Study has been prepared and will be reviewed by the Board of Directors at the meeting. A draft Mitigated Negative Declaration of Environmental Impact has been prepared for the subject proposal. Members of the public may view this document at Borrego Water District, 806 Palm Canyon Drive, Borrego Springs, CA 92004 and may submit written comments at or prior to the Board of Directors hearing.

If any group challenges the action in court, issues raised may be limited to only those issues raised at the public hearing described in this notice or in written correspondence at, or prior to the Board of Directors hearing.

An opportunity will be given at said hearing for all interested persons to be heard. Questions regarding this project may be directed to Richard Williamson, General Manager/District Engineer at 760-767-5806.
