Wermers would like to have the fire hydrant on a separate line. Mr. Poole asked if the 4" line ever has any leaks. Mr. Wermers said there was a leak about a year and a half and two others in

AD HOC:

- A. <u>Cyber:</u> Vice President Baker explained that cyber defenses need to be top of mind all the time so there must be an ongoing Cyber Committee. The District is in process of remediating some OT Suggestions from the last CISA evaluation.
- **B.** Outreach: President Dice suggested planning for the next Town Hall. Director Moran suggested including the AMI project in the Town Hall. The last week of March was suggested and Geoff will work with the Outreach Committee on this item.
- C. <u>Developer's Agreement: Baker/Duncan</u> Director Duncan inquired about the status of the technical reports from T2 that he was under the impression that everything was done. Mr. Poole does not believe the capacity report has been completed for the Capacity report for the Yaqui Pass Pipeline. Additional files were given to T2 last week. Director Duncan does not see a reason to pursue discussions if there is nothing new to report. Director Baker would be interested in understanding T2's new schedule since nothing has happened for months and would like a reset on expectations. Cathy Milky reported that she believes Tom Watson was able to make an incomplete report in previous years based upon information he received in paper form. Now that they have the electronic files, she believes he has everything he needs to continue. She would love to sit down on the 18th. They are still waiting on the Sewer study and would like an update.

IV. STAFF REPORTS - VERBAL

A. <u>General Manager – G Poole</u>

1. Draft Updated Fallowing Plan - Mr. Poole explained that David Bauer may desire some changes to the phasing. Fallowing is continuing by David outside of the Watermaster experiment area. Mr. Bauer explained that Phase 1 was the William Bauer 110 acres and they are mostly complete with a few odds and ends remaining. Well abandonment is still outstanding. This includes (2) wells on the 705 property and (2) wells on the WB property. The equipment has some value but the casing doesn't really have any value unless a unique purchaser can be identified. He will be reviewing with a different well company. Phase II is 705 East where they are working on creating tree fences as they go which

Minutes: January 9, 2023

David expects to be completed in February. The original plan was to have the fallowing completed in 5 years with an 8-year payment plan. Mr. Bauer would like to delay a year and make the fallowing either 6 -7 years to see how things go. They are still growing lemons on some parcels and would like to continue if possible. President Dice said the Board can be flexible as this is water for the future and they would like to see David Bauer benefit, and the Board agrees. The remaining parcels are relatively small and can be fallowed quickly should the need arise in the future. Director Moran asked how the fallowed areas have done with recent high winds. David Bauer explained that everything is holding really well and the existing mulch with the stumps left in place have resulted in no new dust and the sand fences are catching wind debris. He anticipates that the recent rains will bring back natural habitat very quickly. Director Johnson asked if David Bauer would be willing to share information on employee retention and business activities following termination of farming for other related studies. David Bauer agreed he would be happy to participate. Mr. Bauer asked if any equipment may be useful to the District. If so they could store it in the sheds on site. Mr. Poole explained that Operations Manager Alan Asche is reviewing. Vice President Baker asked if the pumps should be left in place for water quality monitoring. Mr. Poole explained that the Watermaster is reviewing each well to see which can be used. The Board of Directors thanked David Bauer for all of his hard work and for coming in to report to them in person.

2. Gallons Per Day Per EDU – Wastewater Update – Mr. Poole reminded the Board of the ongoing EDU Study to find how many gallons per day is an EDU in Borrego. For Town Center, contractual EDU's are 250 MGD but the actual flows are significantly lower. All inflows at the WWTP are now metered to distinguish flows from the various service areas(Town Center/Club Circle They have identified 39 accounts that do not have BSR/Rams Hill). landscaping and are extrapolating to find max average flow. Step one is to estimate how much is going down the drains for typical residences by analyzing the no landscape customers. There will be something to report about water consumption at the next meeting. Step two is to identify actual sewer flows and to use the numbers for future planning. Total Flows divided by number of EDU's per area will help to determine total gallons per EDU. There are some discrepancies in originally assigned EDU numbers and WWTP Operator, Roy Martinez will be doing a system wide audit. Finally the AMI will provide data on indoor vs outdoor water use and will be an additional tool to make a precise estimation on GPD per EDU. Step 3 will not be complete for at least a year or so but some estimates can be used until then.

- C. Distributed Energy System Demonstration with SDG&E Director Baker introduced Laurence and Kim. they presented a funding opportunity to not only enhance the operation of our micro grid. introduce newer technologies, and enhance its reliability, but also provide some resiliency for the water district. Kim McGrath explained the new opportunity from Department of Energy, Office of Clean Energy Demonstration, as well as the California Energy Commission, to enhance resiliency and reliability in the spring through a number of different development, enhancement, and potential funding. The concept overall is enhancing a distributed energy system in Borrego Springs. A number of different facets of the project related to customer rooftop solar, controlling the energy storage, enhancing energy storage in the microgrid yard and having community engagement and ensuring critical customer resiliency is an important/key part, the water district was a natural candidate for a battery system that can not only support local Borrego Springs Grid, but when there is unplanned outage the water district has specific resource that they can rely on to power critical infrastructure. The project itself would be funded through the program with no big capital outlay from the water district, but SDGE would need an easement to be able to place the renewable battery energy system on which would be owned and operated by SDG&E. There are two asks from Distributed Energy System Demonstration are two letters one confirming BWD's interest in the project and the willingness to finding a site at BWD for the project.

D. Borrego Springs Subbasin Watermaster Board

1. Update on Board Activities Including 2-8-24 Agenda Items;

Meeting was Thursday the 8th of February 2024, the meeting functioned as a hearing for the annual report and the public has the opportunity to make comments thru February 22, 2024, also finally the topic of best available science would be on the March agenda for the Borrego Watermaster.

2. Update on Technical Advisory Committee Activities

Trey Driscoll advised that the next TAC Meeting is on May 1, 2024 on the agenda for that meeting there will be two items a review the redetermination of the sustainable yield, and also discussing the five-year assessment report.

For the sustainable yield, Trey states they are on track per the approved work that the water master has put forward. Now in the model recalibration phase for the Borrego Valley hydraulic model and next phase is determining the sustainable yield.

For the five-year update, they have not received comments from DWR it is unlikely to receive them by May first, but they will start going through the process and this were they really need to start emphasizing the additional groundwater quality data that's been collected in the basin that's not in the watermaster report currently and also emphasizing the need for collecting data in the North management area where we have data gaps.

3. 2023 Draft Annual Report Comments -

Written comments for the annual report are due on February 22, 2024 although Mr. Driscoll did provide verbal comments on the water year, 2023 Annual Report at the watermaster February eighth meeting. Current EDU that has been pre-determined is 250 gallons per day, working with the DUDEK engineers they have come up with three step process to estimate the GPD wastewater EDU is.

- 1. Using our existing water customers that have no apparent outside landscape.
- 2. Using our existing meters and our wastewater system.
- 3. The ultimate solution and that is to use the AMI data that will be generated from our system to quantify indoor versus outdoor use.

BWD was put forward for this from Senator Padilla, Senator Feinstein, and Congressman Issa. Ms. Schwab also informed the board that they have been working closely with Diana and Geoff to work with the EPA on getting a waiver for BWD's 20% cost share, given the socioeconomic status of the district for these community project grants. Director Moran asked if these are reimbursement grants and Ms. Schwab explained that although they can be these were requested would be coming to the BWD as a grant. Gm Poole inquired when BWD would receive an answer regarding the 20% BWD needs to apply for the funds by May, in order to be able to receive it in this fiscal year, which for them ends September 30th.
- B. Best, Best and Krieger Legislative Advocacy Engagement Letter GM Poole explained to the board that in November board meetings or maybe early December, they approved the district enter into a new agreement with Syrus that for \$2,500 a month Syrus would do legislative support for BWD in Sacramento. How ever BWD still has yet to do the equivalent for Best Best and Kreiger in Washington DC, GM Poole presented to the board the engagement letter to continue to provide Legislative Support Service for BWD in Washington. There would be a cost increase associated with this request. Based on the success of the program GM Poole asked the board to entertain the concept of increasing their compensation to \$8,500 per month \$2,500 to Syrus in Sacramento and \$6,000 for the Washington support.WHO MOTIONED WHO SECONDED? The Board unanimously agreed to continue with our Advocacy in DC at \$6000 a month.
- C. <u>Purchase and Sale Agreement Viking Ranch</u> Attorney Steve Anderson summarized the contract by going over details in the contract. The purchase is in the form of an option arrangement. US Gypsum is still finalizing their regulatory permits with the regulatory agencies, primarily the Army Corps about their resource sort of mitigation projects they're going to do on this land. USG, once this agreement is

signed, will have the option to purchase this property for \$225,000. While this option is in process, USG are going to pay under paragraph 10 to the district \$500 a month to hold the option. BWD will be getting paid because they're holding the right to exercise an option to purchase the property. In addition once this agreement is signed, they are also paying under paragraph eight (8), \$25,000 to the district to cover legal and staff time that have been spent over these number of years.

Under standard, Army Corps regulatory permits. Desert plants will need planted on this land, they're going to have to meet what is called the survival criteria, once planted waters need to be watered for five (5) years until plants can survive on their own.

If they exercise this option and acquire the property in the next 2 to 3 months. Director Johnson asked where the water for the plants would come from, Attorney Anderson explained there's no baseline pumping allocation going along with the sale, no right to pump and they are not a party to the judgement. MSC: Moran/Johnson made the motion to approve agreement with the option for the general manager to sell. Motion passed with unanimous vote.

BORREGO WATER DISTRICT BOARD OF DIRECTORS MEETING JUNE 25, 2024 AGENDA ITEM II.B

June 20, 2024

TO: Board of Directors

FROM: Geoffrey Poole, General Manager

SUBJECT: Long Term Cash Flow Projections – J Clabaugh

RECOMMENDED ACTION:

Receive Report on Long Term Cash Flow Projections.

ITEM EXPLANATION:

Jessica will present the latest Cash Flow Projections for Board review.

As requested at the last Board Meeting, Staff contacted our past Financial Advisors, Fieldman Rolapp, regarding the question of potential available funding when future BWD Reserve Funds dip to extremely low levels. The basic question is: Would there be funding available to BWD if an emergency expense occurred when the Reserve funds could not satisfy the obligation? A new Engagement Letter has been signed, and the work has officially begun, although they have been aware of the question for 1.5 weeks now. I have asked for a few paragraphs from Fieldman on their initial thoughts regarding the Emergency Funding question and I hope to share with the Board at the meeting on 6-25.

NEXT STEPS

- 1. Monitor Revenue and Expenses and continue Monthly Board Updates
- 2. Work with Fieldman on Emergency Funding availability question/solutions

STRATEGIC GOALS AND OBJECTIVES 2024-25

Maintain/Enhance District Financial Condition:

GOAL: Operate BWD Finances to enhance the Financial Position/Creditworthiness and allow for possible future BWD debt issuances.

OBJECTIVE: The BWD Board/Staff have taken extraordinary steps over the past decade or so to first stabilize and then improve BWD Financial Condition. The effects of this hard work were realized when BWD successfully issued \$5.6 M in Bonds to fund various water and sewer improvements in 2018 and \$3M in additional debt in 2021. At the same time, the foundation was also being set to improve upon BWD Reserve Funds, which has resulted in the current position of \$7 M+ in reserves. BWD is committed to maintain water and wastewater rates/charges and reserve fund balances that provide the required debt service coverage ratios and other economic factors. BWD staff and Board will monitor water and wastewater Operations and Capital Planning to ensure all expenditures are prudent and necessary.

Recent purchases of water rights that are needed for existing BWD customers in the future, will put a strain on cash reserves during the next 7 to 10 years. Reserves are expected to dip below \$2 M in FY2027 which is approximately ½ of current levels. Non-essential capital expenses are being deferred to help preserve cash and the BWD Board will have an opportunity to adjust rates in three years during the next Prop 218 cycle if needed to address the low cash flow. Even at 50% of current reserve levels, BWD is still in a position to cover all expenses and debt service payments, and maintain contractually required reserves.

Replace/Upgrade Water and Sewer Infrastructure:

GOAL: Commit the necessary resources to fund replacement of aging water and sewer infrastructure before failure.

OBJECTIVE: Out of BWDs 88 mile water system, an estimated 45 miles is in need of replacement as soon as possible. Beginning in 2018, a systematic pipeline replacement process begun and to date, De Anza, Flying J, Country Club, Bending Elbow, Double O Rd. and Frying Pan Rd. have been replaced using BWD Bond proceeds. The Board and Staff has been focusing on obtaining State and Federal funding forthese vital projects.

Pursue Grant Funding:

GOAL: Pursue additional Federal and State funding, as available. Maximize the use of Federal and State Grant and other funding sources to offset future rate increases and/or maintain cash reserves.

OBJECTIVE: Utilize Legislative Advocates to strategize and pursue Federal/State and other funding opportunities. Use in house staff to complete the Applications on selected opportunities. BWD has made the Federal Direct Congressional Spend lists again for Legislators Butler, Padilla and Issa and if approved would fund up to \$3.3 M for additional pipeline replacements in and around Palm Canyon Drive and towards the High School.

Protect BWD Interests in Watermaster:

GOAL: A major accomplishment in 2019-20 was realized with the signing of The Settlement Agreement and Stipulated Judgment by over 92% of Basin pumpers. With the Judgment came the creation of the Borrego Spring Basin Watermaster. BWD and its Representatives will engage in the Watermaster process with the best interest of BWD ratepayers, community and environment in mind.

OBJECTIVE: Various potential future Watermaster actions could have a significant impact upon BWD ratepayers, community and environment including water quality degradation and other factors. BWD and its representatives on the Watermaster will continue to focus on ensuring actions taken by the Watermaster do not adversely and unfairly impact BWD and the community or the surrounding environments.

SUBJECT: 2023-24 In Review

Transmitted herewith is the Proposed Final Fiscal Year 2024-25 Budget and Capital Improvement Plan with Cash Flow analysis for the Borrego Water District. The consolidated budget was prepared in compliance with the laws of the State of California and reflects the Board of Directors' (Board) goals/priorities and the District's strategic plans by which to achieve them.

2023-24 IN REVIEW

Capital Project Construction/Start Up: A number of Capital Projects were completed and or started up in 23-24 including new tanks at formerly Twin Tanks site, Indian Head and Rams Hill #2. In addition, BWDs newest well 5-15 received power and was connected to BWDs system. New Monitoring Wells at the Wastewater Treatment Plant

Farmland Fallowing: BWD continues to coordinate with David Bauer on his efforts to fallow farms prior to transferring the land and water rights to BWD. After only 18 months, almost half of the total acreage has been fallowed.

Finances: In the past decade plus, BWD has taken significant steps to become "credit worthy" which was taken advantage of thru the issuance of \$5.3 M in bonds in 2018. In 2021, BWD and its Consultants determined interest rate decreases since 2018 created a situation where a refinance would be possible to reduce future bond payments by approximately \$500,000 during the life of the loan. Bids were requested and Capital One Bank responded with a rate of 2.36% on refinance of the 2018 bonds as well as new debt of \$3 M which will be used for capital and other asset acquisition.

Rate Setting: BWD staff continues to monitor revenue and expenditures and long range projections in anticipaton of the upcoming Proposition 218 Rate Setting process for water and sewer rates and charges in 2027. As required by Law, a comprehensive financial model will be created to project revenue and expenses in 5 year increments and rates set to provide the revenues needed to fund operations and capital. In the current 218 structure adopted in 2022, annual increases of 5% per year were approved for water and 4% on sewer for years 2 thru 5 (0% in year one).

Cyber Security Upgrades: During 2022-24 BWD continued to make cyber security a top priority and is utilizing the expertise of BWD Board Members, staff and IT experts, and has taken steps

usually reserved for the larger agencies. Specifically, BWD has hardened its network at the WWTP and SCADA systems to ensure security in times of remote work and BWD has enlisted the Department of Homeland Security's Cybersecurity and Infrastructure Security Agency(CISA) to perform cyber risk and vulnerability assessments on OT systems in FY24..

Water Supply for Small Development Program Continues: A Program to provide water for small development (less than one acre foot per year) continued during 2022-23 and implementation continued in 23-24. Under the terms of the Program, water supply may be purchased from BWD as well as water service line and meter installation. During 2023-24, 2.2 acre feet were applied for with .55 acre feet purchased under the Program.

Grant Funding: Federal Funding

In the last 36 months, BWD has received over \$9 M in State Grants and Direct Federal Congressional Appropriations funding to replace pipelines mentioned previously as well as replacement of 4 water storage tanks: Twin Tanks (2), Indian Head and Rams Hill #2. BWD continues to pursue other opportunities. Federal Funding in the FY 23-24 Budget totaled \$3.3 M for the Sun Gold development in Borrego Springs Road. The following year another \$3.3 M was approved for Deep Well, Lazy S and Club Circle. In FY 24-25,

Watermaster: The \Borrego Springs Watermaster has taken steps to ensure all non de minimus (less than 2 acre feet per year) pumpers are metered and annual pumping restrictions imposed to reduce pumping by an estimated 74.6% on or before 2040. The BWD budget for 2023-24 includes expenditures for its proportional share of Watermaster expenses (approx. 10%).

No Major Service Disruptions: No extensive, unplanned water or sewer service outages were experienced during the year and the water delivered met all State Quality Requirements.

No Loss Time Injuries: No loss time employee injuries were encountered during the year.

Election of Board Members: Directors Dice and Duncan ran unopposed in 2022 and ex CA State Park Superintendent Gina Moran was appointed to a four year term.

Budget Components for FY 2024-25 – Revenues

The amount budgeted in each category represents Management's best assumptions to successfully accomplish the District's objectives. A summary of the FY 2024-25 budget is below:

- Water sales are projected to remain stable (FY 2023-24 = 1,420 afy). Staff is continuously monitoring changes to consumption and payments and potential impacts to BWD and customers.
- BWD will proceed with the Prop 218 approved increases on July 1, 2024 of 5% for water and 4% for sewer.

• Property tax revenues are expected to remain constant and within BWD's legal authority to assess.

Budget Components for FY 2024-25 – Expenses

- In FY 2024-25, BWD has included projected expenses for Watermaster and general Groundwater Management.
- All existing programs in BWD Operations, Maintenance and Administration Departments are
 fully funded through 2024-25. The major programs in the Water Operations Department
 include system operations and maintenance, water quality monitoring, meter
 testing/replacement, pipeline replacement, reporting and the inevitable emergency pipeline
 repairs that happen each year.
- In the Sewer Operations Department, BWD will fully operate the "renovated" WWTP and assist in analyses to calculate gallons per day per equivalent dwelling unit and inventory and analysis of current EDUs assigned to each account.
- In the Administration Department, all programs are fully funded.

Included in this Budget Package are the proposed Board Resolution to adopt and approve the FY 2024--25 Budget, detailed revenue and expenses, Capital Improvement Plan with project explanations and justifications, non-CIP expenses and a projected Cash Flow that includes proposed future rate increases.

I would personally like to thank the BWD staff and Board for their hard work in preparing and reviewing this Proposed Budget for FY 2024-25.

Sincerely,

Geoff Poole General Manager

SUBJECT: Fiscal Year 2023-24 Budget and Capital Improvement Plan

Transmitted herein is the Proposed Final Fiscal Year 2023-24 Budget and Capital Improvement Plan for the Borrego Water District. The consolidated budget was prepared in compliance with the laws of the State of California and reflects the Board of Directors' (Board) goals/priorities and the District's strategic plans by which to achieve them. The amount budgeted in each category represents Managements best assumptions to successfully accomplish the District's objectives.

Budget Comparison for FY 2024-25 Revenues

Water sales are projected to be similar to the prior fiscal year. In 2021, The BWD Board adopted a water and sewer rate schedule that included 5% water and 4% sewer rates/charges increase for the next four years.

Budget Components for FY 2024-25 Expenses

All expenses for FY 2023-24 have been re-evaluated in an effort to ensure expenses are considering current inflation, supply shortage and other factors.

All existing programs in BWD Operations, Maintenance and Administration Departments are fully funded through 2024-25. The major programs in Water Operations Enterprise include system operations and maintenance, water quality monitoring, meter testing/replacement, Regulatory Reporting and the inevitable emergency repair that happen each year and Capital projects. Labor costs include cost of living adjustments based on the CIP-U for San Diego of 5.3%.

All existing programs in BWD Wastewater Department are fully funded through 2024-25. The major programs in Wastewater Enterprise include collection system and treatment plant operations, wastewater quality monitoring and Regulatory reporting. Capital projects planned include metering of the Rams Hill inflows and in depth analysis of EDU situation as described previously.

In the Administrative Department, all programs are fully funded.

P.O. Box 1870 • 806 Palm Canyon Drive • Borrego Springs, CA 92004 • (760) 767-5806 • Fax: (760) 767-5994

Included in this Budget Package are the proposed Board Resolution to adopt and approve the FY 2024-25 Budget, detailed revenue and expenses, Capital Improvement Plan with Project explanations and justifications, Non CIP expenses and projected Cash Flow that includes proposed future rate increases. I would personally like to thank the BWD staff and Board for their hard work and dedication displayed throughout the current Fiscal Year.

Sincerely,

Geoff Poole

CASH FUNDED CIP

#1: Upgrades to Booster Station #5

PROPOSED BUDGET: \$125,000 cash in FY25

DESCRIPTION

Booster Pump Station 5 pumps water to the Indian Head Tank. If Well 18 is inoperative, Booster Pump Station is used. It will need to be upgraded for capacity in the future.

#2: Country Club Tank Recoating

PROPOSED BUDGET: \$250,000 in FY29

DESCRIPTION

The Country Club Tank is located approximately 1-½ mile west of the intersection of Title T and Borrego Springs Road (S3). The tank has a capacity of 1.0 million gallons and is composed of coated steel. The California Department of Health Services requires the District to physically inspect the inside of the domestic water reservoirs every three years. This service is performed by a consultant that utilizes divers and provides a written report as well as a video. The tank was constructed approximately 17 years ago. The tank is in good condition currently, but it is anticipated that it will need to be recoated.

PROJECT DESIGN/ADMINISTRATION

After the inspection report is delivered and the tank needs recoating, the District Engineer will prepare engineering documents and the project will be sent out for public bidding with Board approval.

Based on experience, it is estimated that a recoating will be needed in 2029. The actual date of recoating will be determined following the periodic video inspections. Following is the estimated schedule based on this timeline:

Dive Inspection: February 2029
Receive Dive Inspection Report: March 2029

Engineering/design completion: March 2029 – April 2029
Project Bidding: April 2029 – May 2029
Repair Recoat Tank: June 2029 – July 2029

COST DETAIL

Without a recent dive inspection, an accurate cost estimate is difficult because the number of metal repairs necessary is unknown. Experience with past projects gives an approximate cost estimate of \$250,000 to recoat and repair the tank.

IMPACTS OF DEFFERAL

Following completion of planned inspections, the magnitude of the corrosion will be known and a plan to repair developed. Deferral of the necessary maintenance could lead to increased repair costs or the need for replacement of the Reservoir completely before the end of its useful life.

#3: Pipeline Replacement Projects

PROPOSED BUDGET: \$438,500 cash in FY31 \$190,000 cash in FY32

DESCRIPTION

The District's water distribution system is aging. Some parts of the distribution system were installed in the 1960's and are starting to reach their life expectancy. The pressure in the system is over 100psi in many areas. Each year there are water pipe breaks that the District repairs. The CIP has included these costs as routine repairs each year. The District's water distribution system was piecemealed together over time as the District took over smaller Districts in the area. The smaller pipelines were interconnected in partial measures. The District has identified three pipeline replacement projects that should be implemented for a more dependable system. The water pipe lines have service laterals that would be replaced to the property lines.

PROJECT DESIGN/ADMINISTRATION

These projects will be designed by a professional engineer in the State of California. After design is complete, the projects will be put out to bid. The lowest responsible bidder will be awarded the project. These pipelines are in need of replacement within the next three years.

COST DETAIL

Estimates were derived using pipeline lengths and cost per unit length. Not enough information is available to do a detailed analysis at this time.

- Flying H Road Pipeline Proposed Construction FY25 Estimate \$188,500
- Walking H/Double O Pipeline Proposed Construction FY25 Estimate \$250,000
- El Tejon Road Pipeline Proposed Construction FY26 Estimate \$190,000

IMPACTS OF DEFFERAL

Potential devastating water pipeline breaks; disruption in water service for prolonged periods; unreliable water service. The projects should be completed as shown in the above timeline due to the frequency of water pipeline breaks which cause lack of service to the District's customers.

#4: Water Supply Acquisition

PROPOSED BUDGET: \$4,356,600 FROM CASH FY23 to FY30

DESCRIPTION

The District has been strategically planning to purchase Water Supply (BPA) in order to be able to serve its customers thru the end of the rampdown period ordered under the basin adjudication. Under the Judgement, purchased lands must be fallowed prior to assigning the BPA to BWD's customer supply. Negotiations are currently underway to acquire land with water rights that total: 1,826 + 670 = 2,496 AF BPA. Included with this purchase are nine

wells that will either need to be abandoned or converted to monitoring wells at a cumulative estimated cost of \$250,000.

PROJECT DESIGN/ADMINISTRATION

The initial contract is in progress and an escrow account will need to be opened annually to administer the ongoing payments and acquisitions.

COST DETAIL

To assist with cash flow, The District is currently exploring options for potential grants to aid in the fallowing costs. In addition, since some parcels are along the State Park and Coyote Creek, the District is also searching for land restoration grants.

IMPACTS OF DEFFERAL

The District had originally planned it's BPA purchases to being in FY27. However, it is prudent for the District to commence these transactions ASAP to maintain costs and to take advantage of market availability.

#5: Emergency Pipeline Repairs

PROPOSED BUDGET: \$63,000 cash in FY24

DESCRIPTION

Each year there are a number of breaks and leaks on District pipelines. This budget sets aside sufficient cash each year for operations staff to respond and repair.

#6: Manhole Replacements/Refurbishments

PROPOSED BUDGET: \$52,267 cash in FY25

DESCRIPTION

The District acquired Improvement District 5 (ID-5) in 2008. Club Circle is part of ID-5, and the infrastructure therein was installed in 1960's. Manholes have deteriorated in this area and should be rehabilitated or replaced as necessary.

GRANT FUNDED CIP

#7: Advanced Metering Infrastructure (AMI)

PROPOSED BUDGET: \$1.3M Prop 68 grant in FY23-25

DESCRIPTION

The Borrego Water District serves just over 2,000 residential water customers whose water meters are manually read on a monthly basis. A grant has been awarded to upgrade all meters to "smart" meters that will provide remote, real-time reads. In addition to reducing meter reading labor hours, AMI will be valuable tool to aid in leak detection and water conservation efforts.

PROJECT DESIGN/ADMINISTRATION

The project is currently in the RFQ/bidding process and work is expected to begin in Summer or Fall of 2023. The grant eligible period runs thru March 30th, 2025.

This is a unique project for the District as it includes creation of an AMI network in addition to endpoint (smart meter) installation. The project will include a pilot phase of about 100 meters to test the product and communication capabilities.

#8: DWR Prop 68 Grant Administration

PROPOSED BUDGET: \$250,000 Prop 68 grant in FY23-25

DESCRIPTION

DWR has awarded a total of \$6.3M to the Borrego Water District and a number of sub-grantees to complete projects basin wide to aid in meeting the objectives of the Groundwater Management Plan. Due to BWD being the eligible applicant on the grant, the District is responsible to administer all projects and to be the point of contact between DWR and the subgrantees.

PROJECT DESIGN/ADMINISTRATION

Grant administration includes working with subgrantees to ensure they comply with the terms of the grant and to compile and submit to DWR all progress reports, reimbursement requests and deliverables due under the grant. BWD has chosen to do this work in-house utilizing existing finance and administration staff.

#9 a) & b): Borrego Springs Road Pipeline Replacement

PROPOSED BUDGET: a) \$912,406 Grant funded thru 2023 Appropriations Act b) \$228,102 Cash Funded 20% Cost Share

DESCRIPTION

Aging infrastructure leads to costly emergency repairs and threatens continuity of service to BWD customers. The District has prioritized pipeline replacements according to age and propensity to leaks. This project is to replace the 10" transmission main on Borrego Springs Road. It will also include replacement of all valves, service laterals and hydrants along the line.

PROJECT DESIGN/ADMINISTRATION

Working with BBK's advocacy team, BWD was able to submit this project request for congressional funding thru Representative Darrell Issa and Senator Alex Padilla. This project was awarded thru the 2023 Appropriations Act to be administered thru the EPA. BWD is currently awaiting next steps from the EPA. By default, Appropriation projects require 20% fund matching from the agency. BWD has submitted a request for a waiver of the 20% self-funding requirement due to the District's SDAC status.

#17: WWTP Oxidation Ditch

PROPOSED BUDGET: \$650,000 Grant Funded in FY27

DESCRIPTION

In 2021, Dudek prepared for the District a Technical Memorandum titled Rams Hill WWTF Capacity Analysis and Cost Estimates for Facility Replacement and Expansion Alternatives. The memo indicates "bottlenecks" in the design that are hindering the plant's ability to operate at the design capacity of 250 MGD. One of these bottlenecks is the Oxidation Ditch which was found to have a current, in use TKN treatment capacity of 55lb per day where design

criteria was assumed to be 63lb per day. Under this constraint, the District can only connect an additional 104 EDUs to the plant. Replacement of the Oxidation Ditch will result in the ability to add additional EDU's and aid in bringing the plant to design capacity.

PROJECT DESIGN/ADMINISTRATION

The planning for this project is very preliminary and additional studies will need to be done to finalize a more accurate cost and scope of work. DWR has indicated that there is most likely grant funding available for this type of project. Collaborating with Dudek, BWD intends to determine a final scope of work and cost estimate.

#18: WWTP Equalization Basin

PROPOSED BUDGET: \$650,000 Grant Funded in FY27

DESCRIPTION

In 2021, Dudek prepared for the District a Technical Memorandum titled Rams Hill WWTF Capacity Analysis and Cost Estimates for Facility Replacement and Expansion Alternatives. The memo indicates "bottlenecks" in the design that are hindering the plant's ability to operate at the design capacity of 250 MGD. One of these bottlenecks is the Equalization Basin which was found to have a current, in use capacity of 58,150 GPD where design criteria was assumed to be 121,500 GPD. Expansion of the Equalization Basin will result in the ability to add additional EDU's and aid in bringing the plant to design capacity.

PROJECT DESIGN/ADMINISTRATION

The planning for this project is very preliminary and additional studies will need to be done to finalize a more accurate cost and scope of work. DWR has indicated that there is most likely grant funding available for this type of project. Collaborating with Dudek, BWD intends to determine a final scope of work and cost estimate.

#19: New Production Well

PROPOSED BUDGET: \$2,500,000 Grant Funded in FY35

DESCRIPTION

A new production well may need to be installed in the next five years. Wells ID1-8, and ID1-10 cannot be rehabilitated again and falling groundwater levels are contributing to the problem.

PROJECT DESIGN/ADMINISTRATION

Dudek prepared a report "Draft Working Technical Memorandum" dated June 16, 2017 that describes three separate Subbasin within the BWD service boundary. The report identifies that the Central Management Basin has the best chance for water that meets the requirements of California Code of Regulations (CCR) Title 17 and Title 22.

The BWD has already initiated preliminary review of potential new sources of supply in the Borrego Springs Subbasin and will further identify strategic sources of supply that meet Title 22 potable drinking water quality requirements.

Once a site has been selected, an exploration phase will commence. If the water quality and depth is acceptable, the land will be acquired for the wellsite and the well will be constructed to municipal standards.

Due to the fact that certain BWD wells have reached the end of their useful life, it is imperative to investigate and construct the replacement well before any existing well fails. BWD is confident that it will be able to obtain future grant funding for this project.

BOND FUNDED PROJECTS

#20: Future Water Supply Acquisition

PROPOSED BUDGET: \$2,000,000 Bond Funded in FY35

DESCRIPTION

The District has been strategically planning to purchase Water Supply (BPA) in order to be able to serve its customers thru the end of the rampdown period ordered under the basin adjudication. Upon commencement of Water Supply Acquisitions listed in CIP Items NO. 6 & 27, the District will still be about 1,000 AF of BPA short to supply its customer base with overproduction estimated to being around 2049. The District will need to be on the lookout for additional opportunities to purchase BPA.

#21: Well 5 Transmission Main Project

PROPOSED BUDGET: \$1,215,000 Bond Funded in FY35

DESCRIPTION

Well ID5-5 is expected to require a new, dedicated transmission main in the future. Planning for this project does not need to commence for about 8-10 years, but the District has put it on the CIP as a placeholder for a future project.

#22: Water Treatment Facility

PROPOSED BUDGET: \$2,000,000 Bond Funded in FY35

DESCRIPTION

Due to increasing levels of nitrates and TDS in a few wells in the valley, BWD anticipates it will need to conduct some level of water treatment in the future. The District is in the early stages of a Water Quality Study by Intera. This study is intended to assess current level and trends of COCs and to implement thresholds to determine when and what types of treatment will be necessary.

Due to the likeliness that some level of water treatment will be required, BWD has included this project as a future Bond Funded CIP item in FY35. Project costs are highly speculative and since there is no immediate risk of water contamination in BWD Production wells, it is yet to be determined when and where future treatment will be necessary based on the factors outlined above.

APPENDIX B: FUTURE WATER SUPPLY PURCHASE

Description: Explanation and Description of \$1.9M Water Supply Purchase in FY2027

On January 30, 2020, pursuant to California Water Code (CWC) Sections 10733.6 and 10737.4, BWD submitted to the California Department of Water Resources (DWR) a proposed Stipulated Judgment (Judgement) for the Borrego Springs Groundwater Subbasin (Subbasin) including a Groundwater Management Plan (GMP), constituting a *Physical Solution* for DWR's review and approval to serve as an alternative to a Groundwater Sustainability Plan (GSP) for the Subbasin in compliance with the California 2014 Sustainable Groundwater Management Act (SGMA).

The pumpers of the Subbasin representing approximately 92% of annual Subbasin extractions agreed to a Settlement of water rights also applied to the California Superior Court (Court) for a Judgement. Until the Court approves the Judgement, the Subbasin pumpers have agreed to implement the *Physical Solution* under an interim Watermaster Board.

The objective of the Judgement is to assign Baseline Pumping Allocations (BPAs) to Subbasin pumpers that will be reduced on an annual basis to collectively not exceed the sustainable yield of the Subbasin by no later than 2040. The result of this means of achieving SGMA requirements is that BWD will be required to purchase BPAs from other Subbasin pumpers to meet the water demand needs of existing BWD customers. For this reason, BWD has budgeted approximately \$1,900,000 in FY 2027 to purchase additional permanent water supply and included this amount in its CIP capital need projections.

INTRODUCTION

This report provides an analysis of the financial and administrative obligations of Community Facilities District No. 2007-1 ("CFD No. 2007-1") of the Borrego Water District (the "Water District"). The \$9,530,000 Series 2007 Special Tax Bonds (the "Series 2007 Bonds") were issued in June 2007 and have been in default since September 2011. The District and the bond owner agreed to remedy the default of the Series 2007 Bonds through a restructuring in which the Series 2007 Bonds were paid off and accrued interest and penalties, interest and other charges were waived and discharged forever. In addition, as a part of the restructuring, the lien for CFD No. 2007-1 was cancelled for certain property owned by the bond owner and such property was included in a new CFD called CFD No. 2017-1. In May 2017, the Water District issued \$1,100,000 Series 2017A Special Tax Refunding Bonds (the "Series 2017A Bonds") for CFD No. 2007-1 and \$10,300,000 Series 2017B Special Tax Refunding Bonds (the "Series 2017B Bonds") for CFD No. 2017-1. The Series 2017A and 2017B Bonds were issued for the purpose of defeasing and refunding the outstanding CFD No. 2007-1 Bonds. The outstanding Series 2007 bond amounts owed at the time of the restructuring was \$12,816,116, representing principal in the amount of \$9,320,000 (of which \$1,535,000 was past due) and accrued and unpaid interest in the amount of \$3,496,116. A total of \$1,416,116 in accrued and unpaid interest was waived and forever discharged.

CFD No. 2007-1 is a legally constituted governmental entity established under the Mello-Roos Community Facilities Act of 1982, (the "Act") as amended. The Act provides an alternative method for the financing of certain public capital facilities and services. Specifically, CFD No. 2007-1 is authorized to issue up to \$11,000,000 in bonds and has sold \$9,530,000 in bonds for purposes of refunding prior bonds issued by CFD No. 95-1 of the Water District, as well as by CFD No. 2007-1. The current outstanding principal is equal to \$730,000 as of August 2, 2023. The Series 2017A Bonds are scheduled to be paid off in year 2032. Pursuant to the Amended and Restated Rate and Method of Apportionment for CFD No. 2007-1 ("RMA"), the special tax shall be levied for a period not to exceed 40 years commencing in Fiscal Year 2007-2008. The RMA is included in Appendix C.

The bonded indebtedness of CFD No. 2007-1 is both secured and repaid through the annual levy and collection of special taxes from all property subject to the tax within CFD No. 2007-1. In calculating the special tax liability for fiscal year 2024-2025, this report examines the financial obligations of the current fiscal year and analyzes the level of development within CFD No. 2007-1.

As part of the restructuring, a majority of the taxable property located within Community Facilities District 2007-1 was released from the obligation to pay its CFD No. 2007-1 special taxes and was included in Borrego Water District Community Facilities District No. 2017-1. A Notice of Cancellation was recorded for such property on July 20, 2017. Only 88 lots of Developed Property (and certain exempt property) remain in CFD No. 2007-1. All property expected to be developed in the future has been included in CFD No. 2017-1.

showing the property remaining in CFD No. 2007-1 is included in Appendix A.

This report is organized into the following sections:

- **Section I**: Section I provides an update of the development status of property within CFD No. 2007-1;
- Section II: Section II analyzes the previous fiscal year's special tax levy and includes a discussion of delinquent special taxes;
- Section III: Section III determines the financial obligations of CFD No. 2007-1 for fiscal year 2024-2025; and
- Section IV: Section IV reviews the methodology used to apportion the special tax requirement between Developed Property and Undeveloped Property. A table of the 2024-2025 special taxes for each classification of property is included.

I SPECIAL TAX CLASSIFICATIONS AND DEVELOPMENT UPDATE

A Special Tax Classifications

www.FinanceDTA.com

The methodology employed to calculate and apportion the special tax is contained in a document entitled the Amended and Restated Rate and Method of Apportionment of the Special Tax. The Amended and Restated Rate and Method of Apportionment defines two primary categories of taxable property, namely "Developed Property" and "Undeveloped Property." The category of Developed Property is in turn divided into five separate special tax classifications based on the size of the lot or the use of the property. A table of the Developed Property special tax classifications is shown below.

Land Use ClassDescription1Residential Property (lot size >12,000 sq. ft.)2Residential Property (lot size <12,000 sq. ft.)</td>3Commercial Property4Golf Course Property5Hotel/Motel Property

Table 1: Developed Property Classifications

Developed Property is distinguished from Undeveloped Property by (i) the recordation of a final map for residential property, (ii) the issuance of a building permit for commercial property or hotel/motel property, and (iii) the determination of Golf Course Property. Specifically, property for which a final map was recorded or a building permit was issued as of January 1 will be classified as Developed Property in the following fiscal year.

B Development Update

Under the original boundaries, CFD No. 2007-1 encompassed approximately 3,140 gross acres of land in unincorporated San Diego County. After the cancellation of the lien for certain property in CFD No. 2007-1, CFD No. 2007-1 now encompasses approximately 997 gross acres. Of this amount, approximately 24 gross acres is considered Residential Property, while the remaining acreage consists of open space, streets, and other uses not subject to the special tax.

Property remaining in CFD No. 2007-1 includes a total of 88 residential lots that are within final subdivision maps and considered Residential Property. There is no property considered Golf Course Property, Commercial Property, or Hotel/Motel Property within CFD No. 2007-1. In addition, there are no parcels located in CFD No. 2007-1 that remain to be developed. The table below indicates the cumulative Developed Property, by class, within CFD No. 2007-1.

SECTION II FISCAL YEAR 2023-2024 LEVY

II FISCAL YEAR 2023-2024 LEVY

The aggregate Special Tax levy for the property located within CFD No. 2007-1 for Fiscal Year 2023-2024 equaled \$112,636. As of June 14, 2024, \$111,869.86 in special taxes had been collected by the County resulting in a delinquency rate of approximately 0.68%.

SECTION III FISCAL YEAR 2024-2025 SPECIAL TAX REQUIREMENT

III FISCAL YEAR 2024-2025 SPECIAL TAX REQUIREMENT

For fiscal year 2024-2025, the special tax requirement is equal to \$102,686 and is calculated as follows:

IV METHOD OF APPORTIONMENT

A Maximum Special Tax Rates

The amount of special taxes that CFD No. 2007-1 may levy is strictly limited by the maximum special taxes set forth in the Amended and Restated Rate and Method of Apportionment. The maximum special taxes for each classification of Developed Property, or the "Assigned Special Taxes," are specified in Table 1 of Section C of the Amended and Restated Rate and Method of Apportionment.¹

B Termination of Special Tax

The Special Tax shall be levied for a period not to exceed forty years commencing in fiscal year 2007-2008.

C Apportionment of Special Taxes

The special tax that is apportioned to each parcel is determined through the application of Section D of the Amended and Restated Rate and Method of Apportionment. Section D apportions the special tax requirement in five steps which prioritize the order in which Developed Property and Undeveloped Property are taxed.

The first step states that the special tax shall be levied against each parcel of Residential Property, Commercial Property, and Hotel/Motel Property at up to 100% of the assigned special tax. If the special taxes raised pursuant to the first step are less than the special tax requirement, then the second step is applied. The second step states that the special tax shall be levied against each parcel of Golf Course Property at up to 100% of the assigned special tax. If additional monies are needed, then the third step is applied. The third step states that the special tax shall be levied against all parcels of Undeveloped Property at up to 100% of the applicable maximum special tax per acre. Since there is no Golf Course or Undeveloped Property remaining in CFD No. 2007-1, the second and third steps are not necessary. The fourth and fifth steps are designed to accommodate changes in land use and are intended to be used only as a last resort.

Application of the maximum special taxes under the first step generates special tax revenues of \$115,689 from Residential Property, which is sufficient to meet all obligations for CFD No. 2007-1 for fiscal year 2024-2025 as outlined in Section III. Therefore, the fiscal year 2024-2025 special tax levied against each parcel of Developed Property is equal to approximately 88.76% of the applicable maximum special tax for such parcel. The fiscal year 2024-2025

¹ Technically, Section C states that the maximum special tax for a parcel of Developed Property is equal to the greater of the rate set forth for the applicable Developed Property classification in Table 1 of Section C or "Backup Special Tax." The Backup Special Tax was established for the contingency of a shortfall in revenues resulting from significant changes in development densities. The contingency for which the Backup Special Tax was established does not exist and hence, all discussion of maximum tax rates focuses on the rates set forth for each classification of Developed Property in Section C of the Amended and Restated Rate and Method of Apportionment.

maximum and actual special taxes are shown for each classification of Developed Property and Undeveloped Property in the following table.

Developed Property shall be further classified as Residential Property, Commercial Property, Golf Course Property, and Hotel/Motel Property. An Assessor's Parcel of Residential Property shall be assigned to Land Use Classes 1 or 2 based on its lot size.

C. <u>MAXIMUM SPECIAL TAX</u>

1. Developed Property

a. <u>Maximum Special Tax</u>

The Maximum Special Tax for each Assessor's Parcel classified as Developed Property shall be the greater of (i) the amount derived by application of the Assigned Special Tax or (ii) the amount derived by application of the Backup Special Tax.

b. <u>Assigned Special Tax</u>

The Assigned Special Tax for each Land Use Class is shown below in Table 1

TABLE 1
Assigned Special Taxes for Developed Property

Land Use Class	Description	Lot Size	Assigned Special Tax
1	Residential Property	\geq 12,000 sq. ft.	\$1,574 per lot

5	Hotel/Motel Property	Not Applicable	\$300 per hotel room

c. Multiple Land Use Classes

In some instances an Assessor's Parcel of Developed Property may contain more than one Land Use Class. The Assigned Special Tax levied on an Assessor's Parcel shall be the sum of the Assigned Special Taxes for all Land Use Classes located on that Assessor's Parcel. The Maximum Special Tax that can be levied on an Assessor's Parcel shall be the sum of the Maximum

Special Taxes that can be levied for all Land Use Classes located on that Assessor's Parcel. For an Assessor's Parcel that contains more than one type of land use, the Acreage of such Assessor's Parcel shall be allocated to each Land Use Class based on the amount of Acreage designated for each land use as determined by reference to the site plan approved for such Assessor's Parcel.

d. <u>Backup Special Tax</u>

The Backup Special Tax for an Assessor's Parcel of Developed Property shall equal \$28,058 per Acre.

2. Undeveloped Property, Taxable Property Owner Association Property, and Taxable Public Property

The Maximum Special Tax for Undeveloped Property, Taxable Property Owner Association Property, and Taxable Public Property in CFD No. 2007-1 shall equal \$28,058 per Acre.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAX

For each Fiscal Year, commencing Fiscal Year 2007-08, the Board shall determine the Special Tax Requirement and shall levy the Special Tax as follows:

<u>First</u>: The Special Tax shall be levied Proportionately on each Assessor's Parcel of Residential Property, Commercial Property, and Hotel/Motel Property at up to 100% of the applicable Assigned Special Tax;

<u>Second</u>: If additional monies are needed to satisfy the Special Tax Requirement after the first step has been completed, the Special Tax shall be levied Proportionately on each Assessor's Parcel of Golf Course Property at up to 100% of the Assigned Special Tax for Golf Course Property;

<u>Third</u>: If additional monies are needed to satisfy the Special Tax Requirement after the first two steps have been completed, the Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property at up to 100% of the Maximum Special Tax for Undeveloped Property;

<u>Fourth</u>: If additional monies are needed to satisfy the Special Tax Requirement after the first three steps have been completed, then the levy of the Special Tax on each Assessor's Parcel of Developed Property whose Maximum Special Tax is determined through the application of the Backup Special Tax shall be increased in equal percentages from the Assigned Special Tax up to the Maximum Special Tax for each such Assessor's Parcel;

<u>Fifth</u>: If additional monies are needed to satisfy the Special Tax Requirement after the first four steps have been completed, then the Special Tax shall be levied Proportionately on each

Assessor's Parcel of Taxable Property Owner Association Property or Taxable Public Property at up to the Maximum Special Tax for Taxable Property Owner Association Property or Taxable Public Property.

Notwithstanding the above, under no circumstances will the Special Tax levied against any Assessor's Parcel of Residential Property for which an occupancy permit for private residential use has been issued be increased by more than ten percent as a consequence of delinquency or default by the owner of any other Assessor's Parcel within CFD No. 2007-1.

E. <u>EXEMPTIONS</u>

No Special Tax shall be levied on up to 2,125.11 Acres of Property Owner Association Property, Public Property, and Non-Buildable Residential Property. Tax-exempt status will be assigned by the CFD Administrator first to Non-Buildable Residential Property and second, in the chronological order in which property becomes Property Owner Association Property or Public Property. However, should an Assessor's Parcel no longer be classified as Property Owner Association Property or Public Property, its tax-exempt status will be revoked.

Property Owner Association Property or Public Property that is not exempt from Special Taxes under this section shall be subject to the levy of the Special Tax and shall be taxed Proportionately as part of the fourth step in Section D above, at up to 100% of the applicable Maximum Special Tax for Taxable Property Owner Association Property or Taxable Public Property.

F. <u>APPEALS AND INTERPRETATIONS</u>

Any property owner claiming that the amount or application of the Special Tax with respect to his or her Assessor's Parcel is not correct and requesting a refund may file a written notice of appeal and refund to that effect with the CFD Administrator not later than one calendar year after having paid the Special Tax that is disputed. The CFD Administrator shall promptly review the appeal, and if necessary, meet with the property owner, consider written and oral evidence regarding the amount of the Special Tax, and decide the appeal. If the CFD Administrator's decision requires the Special Tax be modified or changed in favor of the property owner, a cash refund shall not be made (except for the last year of levy), but an adjustment shall be made to the next Special Tax levy. Any dispute over the decision of the CFD Administrator shall be referred to the Board and the decision of the Board shall be final. This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to any legal action by such owner.

Interpretations may be made by the Board by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Amended and Restated Rate and Method of Apportionment.

G. MANNER OF COLLECTION

The Special Tax will be collected in the same manner and at the same time as ordinary *ad valorem* property taxes; provided, however, that CFD No. 2007-1 may directly bill the Special Tax, may collect Special Taxes at a different time or in a different manner if necessary to meet its financial obligations, and may covenant to foreclose and may actually foreclose on delinquent Assessor's Parcels as permitted by the Act.

H. PREPAYMENT OF SPECIAL TAX

The following definition applies to this Section H:

'Bond Redemption Date' means the redemption date pursuant to the Fiscal Agent Agreement for the Outstanding Bonds to be redeemed with the prepayment.

"CFD Public Facilities Cost" means either \$12.54 million in 2007 dollars, which shall increase by the Inflator on July 1, 2008, and on each July 1 thereafter, or such lower number as (i) shall be determined by the CFD Administrator as sufficient to provide the public facilities to be provided by CFD No. 2007-1 under the authorized bonding program for CFD No. 2007-1, or (ii) shall be determined by the Board concurrently with a covenant that it will not issue any more Bonds to be supported by Special Taxes levied under this Amended and Restated Rate and Method of Apportionment as described in Section D.

"Construction Fund" means an account specifically identified in the Fiscal Agent Agreement to hold funds which are currently available for expenditure to acquire or construct public facilities eligible under the Act.

"Construction Inflation Index" means the annual percentage change in the Engineering News-Record Building Cost Index for the City of Los Angeles, measured as of the calendar year which ends in the previous Fiscal Year. In the event this index ceases to be published, the Construction Inflation Index shall be another index as determined by the CFD Administrator that is reasonably comparable to the Engineering News-Record Building Cost Index for the City of Los Angeles.

"Inflator" means the greater of (i) the annual percentage change in the Construction Inflation Index, as calculated for the twelve (12) months ending December 31 of the prior calendar year or (ii) three percent (3.0%).

"Future Facilities Costs" means the CFD Public Facilities Cost minus (i) funds used to redeem bond issued by Community Facilities District No. 95-1, (ii) public facility costs previously paid from the Construction Fund, (iii) moneys currently on deposit in the Construction Fund, and (iv) moneys currently on deposit in an escrow fund that are expected to be available to finance facilities costs.

"Outstanding Bonds" means all Previously Issued Bonds which are deemed to be outstanding under the Fiscal Agent Agreement after the first interest and/or principal payment date following the current Fiscal Year.

"Previously Issued Bonds" means all Bonds that have been issued by CFD No. 2007-1 prior to the date of prepayment.

1. Prepayment in Full

The obligation of an Assessor's Parcel to pay the Special Tax may be prepaid and permanently satisfied as described herein; provided that a prepayment may be made only for Assessor's Parcels of Developed Property, or Undeveloped Property for which a building permit has been issued or that is within a Residential Final Map, and only if there are no delinquent Special Taxes with respect to such Assessor's Parcel at the time of prepayment. An owner of an Assessor's Parcel intending to prepay the Special Tax obligation shall provide the CFD Administrator with written notice of intent to prepay. Within 30 days of receipt of such written notice, the CFD Administrator shall notify such owner of the prepayment amount for such Assessor's Parcel. The CFD Administrator may charge a reasonable fee for providing this service.

The Prepayment Amount (defined below) shall be calculated as summarized below (capitalized terms as defined below):

Bond Redemption Amount

plus	Redemption Premium
plus	Future Facilities Amount
plus	Defeasance Amount

plus Administrative Fees and Expenses

Total: equals Reserve Fund Credit
Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount (defined below) shall be calculated as follows:

Step No.:

- 1. Confirm that no Special Tax delinquencies apply to such Assessor's Parcel.
- 2. For Assessor's Parcels of Developed Property, compute the Assigned Special Tax and Backup Special Tax applicable for the Assessor's Parcel to be prepaid. For Assessor's Parcels of Undeveloped Property (for which a building permit has been issued or that is within a Residential Final Map) to be prepaid, compute the Assigned Special Tax and Backup Special Tax for that Assessor's Parcel as though it was already designated as Developed Property.

- 3. (a) Divide the Assigned Special Tax, computed pursuant to paragraph 2, by the total estimated Assigned Special Taxes for the entire CFD No. 2007-1 based on the Developed Property Assigned Special Taxes which could be charged in the current Fiscal Year on all expected development through buildout of CFD No. 2007-1, and
 - (b) Divide the Backup Special Tax for Developed Property, computed pursuant to paragraph 2, by the estimated Maximum Special Taxes from Developed Property at buildout of CFD No. 2007-1 plus the Maximum Special Tax for the Assessor's Parcel of Taxable Property Owner Association Property or Taxable Public Property being prepaid (if applicable), excluding any Assessor's Parcels which have been prepaid.
- 4. Multiply the larger quotient computed pursuant to paragraph 3(a) or 3(b) by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (the "Bond Redemption Amount").
- 5. Multiply the Bond Redemption Amount computed pursuant to paragraph 4 by the applicable redemption premium, if any, as set forth in the Fiscal Agent Agreement, on the Outstanding Bonds to be redeemed (the "Redemption Premium").
- 6. Compute the current Future Facilities Costs.
- 7. Multiply the larger quotient computed pursuant to paragraph 3(a) or 3(b) by the amount determined pursuant to paragraph 6 to compute the amount of Future Facilities Costs to be prepaid (the "Future Facilities Amount").
- 8. Compute the amount needed to pay interest on the Bond Redemption Amount from the first bond interest and/or principal payment date following the current Fiscal Year until the Bond Redemption Date.
- 9. Determine the Special Taxes levied on the Assessor's Parcel in the current Fiscal Year which have not yet been paid.
- 10. Compute the minimum amount the CFD Administrator reasonably expects to derive from the reinvestment of the Prepayment Amount (as defined below) less the Future Facilities Amount and the Administrative Fees and Expenses (as defined below) from the date of prepayment until the Bond Redemption Date.
- 11. Add the amounts computed pursuant to paragraphs 8 and 9 and subtract the amount computed pursuant to paragraph 10 (the "Defeasance Amount").
- 12. Verify the administrative fees and expenses of CFD No. 2007-1, including the costs of computation of the prepayment, the costs to invest the prepayment proceeds, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (the "Administrative Fees and Expenses").

- 13. If reserve funds for the Outstanding Bonds, if any, are at or above 100% of the reserve requirement (as defined in the Fiscal Agent Agreement) on the prepayment date, a reserve fund credit shall be calculated based on a reduction in the applicable reserve fund for the Outstanding Bonds, as set forth in the Fiscal Agent Agreement, to be redeemed pursuant to the prepayment (the "Reserve Fund Credit"). No Reserve Fund Credit shall be granted if reserve funds are below 100% of the reserve requirement.
- 14. The Special Tax prepayment is equal to the sum of the amounts computed pursuant to paragraphs 4, 5, 7, 11 and 12, less the amount computed pursuant to paragraph 13 (the "Prepayment Amount").
- 15. From the Prepayment Amount, the amounts computed pursuant to paragraphs 4, 5, 11 and 13 shall be deposited into the appropriate fund as established under the Fiscal Agent Agreement and be used to retire Outstanding Bonds or make debt service payments. The amount computed pursuant to paragraph 7 shall be deposited into the Construction Fund. The amount computed pursuant to paragraph 12 shall be retained by CFD No. 2007-1.

The Prepayment Amount may be sufficient to redeem other than a \$5,000 increment of Bonds. In such cases, the increment above \$5,000 or integral multiple thereof will be retained in the appropriate fund established under the Fiscal Agent Agreement to be used with the next prepayment of Bonds or to make debt service payments.

As a result of the payment of the current Fiscal Year's Special Tax levy as determined under paragraph 9 (above), the CFD Administrator shall remove the current Fiscal Year's Special Tax levy for such Assessor's Parcel from the County tax rolls. With respect to any Assessor's Parcel that is prepaid, the Board shall cause a suitable notice to be recorded in compliance with the Act, to indicate the prepayment of Special Taxes and the release of the Special Tax lien on such Assessor's Parcel, and the obligation of such Assessor's Parcel to pay the Special Tax shall cease.

Notwithstanding the foregoing, no Special Tax prepayment shall be allowed unless the amount of Assigned Special Taxes that may be levied on current and future Developed Property based on expected development at buildout, both prior to and after the proposed prepayment, less expected Administrative Expenses, is at least 1.1 times the maximum annual debt service on all Outstanding Bonds.

2. Prepayment in Part

The Special Tax on an Assessor's Parcel of Developed Property or an Assessor's Parcel of Undeveloped Property for which a building permit has been issued or that is within a Residential Final Map may be partially prepaid. The amount of the prepayment shall be calculated as in Section H.1; except that a partial prepayment shall be calculated according to the following formula:

$$PP = (P_E - A) \times F + A$$

These terms have the following meaning:

PP = the partial prepayment

 P_E = the Prepayment Amount calculated according to Section H.1

F = the percentage by which the owner of the Assessor's Parcel(s) is

partially prepaying the Special Tax.

A = the Administration Fees and Expenses from Section H.1

The owner of any Assessor's Parcel who desires such prepayment shall notify the CFD Administrator of such owner's intent to partially prepay the Special Tax and the percentage by which the Special Tax shall be prepaid. The CFD Administrator shall provide the owner with a statement of the amount required for the partial prepayment of the Special Tax for an Assessor's Parcel within thirty (30) days of the request and may charge a reasonable fee for providing this service. With respect to any Assessor's Parcel that is partially prepaid, the Water District shall (i) distribute the funds remitted to it according to Section H.1, and (ii) indicate in the records of CFD No. 2007-1 that there has been a partial prepayment of the Special Tax and that a portion of the Special Tax with respect to such Assessor's Parcel, equal to the outstanding percentage (1.00 - F) of the remaining Maximum Special Tax, shall continue to be levied on such Assessor's Parcel pursuant to Section D.

Notwithstanding the foregoing, no Special Tax prepayment shall be allowed unless the amount of Assigned Special Taxes that may be levied on current and future Developed Property based on expected development at buildout, both prior to and after the proposed prepayment, less expected Administrative Expenses, is at least 1.1 times the maximum annual debt service on all Outstanding Bonds.

I. TERM OF SPECIAL TAX

The Special Tax shall be levied for a period not to exceed forty years commencing in Fiscal Year 2007-08.

INTRODUCTION

This report provides an analysis of the financial and administrative obligations of Community Facilities District No. 2017-1 ("CFD No. 2017-1") of the Borrego Water District (the "Water District"). In May 2017, the Water District issued \$10,300,000 Series 2017B Special Tax Refunding Bonds (the "Bonds") for CFD No. 2017-1. The Bonds were issued for the purpose of defeasing and refunding a portion of the outstanding CFD No. 2007-1 Bonds which were previously in default.

CFD No. 2017-1 is a legally constituted governmental entity established under the Mello-Roos Community Facilities Act of 1982, (the "Act") as amended. The Act provides an alternative method for the financing of certain public capital facilities and services. Specifically, CFD No. 2017-1 is authorized to issue up to \$10,300,000 in bonds and has issued \$10,300,000 in bonds for the purpose of defeasing and discharging a portion of the CFD No. 2007-1 Series 2007 Bonds. The current outstanding principal is equal to \$9,360,000 as of August 2, 2023. The Bonds are scheduled to be paid off in year 2042. Pursuant to the Rate and Method of Apportionment for CFD No. 2017-1 ("RMA"), the special tax shall be levied for a period not to exceed 40 years commencing in Fiscal Year 2024-2025. The RMA is included in Appendix C.

The bonded indebtedness of CFD No. 2017-1 is both secured and repaid through the annual levy and collection of special taxes from all property subject to the tax within CFD No. 2017-1. In calculating the special tax liability for fiscal year 2024-2025, this report examines the financial obligations of the current fiscal year and analyzes the level of development within CFD No. 2017-1.

A map showing the property in CFD No. 2017-1 is included in Appendix A.

This report is organized into the following sections:

- Section I: Section I provides an update of the development status of property within CFD No. 2017-1;
- **Section II**: Section II analyzes the previous fiscal year's special tax levy and includes a discussion of delinquent special taxes;
- Section III: Section III determines the financial obligations of CFD No. 2017-1 for fiscal year 2024-2025; and
- Section IV: Section IV reviews the methodology used to apportion the special tax requirement between Developed Property and Undeveloped Property. A table of the 2024-2025 special taxes for each classification of property is included.

SECTION I SPECIAL TAX CLASSIFICATIONS AND DEVELOPMENT UPDATE

I SPECIAL TAX CLASSIFICATIONS AND DEVELOPMENT UPDATE

A Special Tax Classifications

The methodology employed to calculate and apportion the special tax is contained in a document entitled the Rate and Method of Apportionment of the Special Tax. The Rate and Method of Apportionment defines two primary categories of taxable property, namely "Developed Property" and "Undeveloped Property."

Developed Property is distinguished from Undeveloped Property by the issuance of a building permit by the County for purposes of constructing a new residential or non-residential development. Specifically, property for which a final map was recorded or a building permit was issued as of January 1 will be classified as Developed Property in the following fiscal year. For example, all property in CFD No. 2017-1 for which the above events had occurred as of January 1, 2024, will be classified as Developed Property in fiscal year 2024-2025.

B Development Update

CFD No. 2017-1 encompasses approximately 1,878 gross acres of land in unincorporated San Diego County. As of January 1, 2024, there was no property classified as Developed Property. Approximately 1,641 acres of Undeveloped Property are taxable and approximately 236 acres are Exempt Property.

Table 1: Cumulative Development

Property Classification	Number of Acres
Developed Property	0 acres
Undeveloped Property	1,641.38 acres

II FISCAL YEAR 2023-2024 LEVY

All Fiscal Year 2023-2024 special taxes for CFD No. 2017-1 were direct billed by the Water District. The aggregate Special Tax levy for the property located within CFD No. 2017-1 for Fiscal Year 2023-2024 equaled \$733,461. As of June 14, 2024, all Fiscal Year 2023-2024 special taxes have been paid in full.

III FISCAL YEAR 2024-2025 SPECIAL TAX REQUIREMENT

For fiscal year 2024-2025, the Special Tax Requirement for Bonds Held by Bond Owner is equal to \$708,391 and is calculated as follows:

Table 2: Fiscal Year 2024-2025 Special Tax Requirement

	Subtotal	Total
Fiscal Year 2023-2024 Surplus		\$12,409
Fiscal Year 2024-2025 Obligations		(\$720,800)
Interest Due February 1, 2025	(\$180,400)	
Interest Due August 1, 2025	(\$180,400)	
Principal Due August 1, 2025	(\$350,000)	
Administration Expenses	(\$10,000)	
Fiscal Year 2024-2025 Special Ta	(\$708,391)	

The fiscal year 2024-2025 special taxes will be direct billed by the Water District. The components of the fiscal year 2024-2025 gross special tax requirement are shown graphically on the following page.

Figure 1: Fiscal Year 2024-2025 Gross Special Tax Requirement

Total Fiscal Year 2024-2025 Gross Special Tax Requirement: \$708,391

IV METHOD OF APPORTIONMENT

A Maximum Special Tax Rates

The amount of special taxes that CFD No. 2017-1 may levy is strictly limited by the maximum special taxes set forth in the Rate and Method of Apportionment. The maximum special taxes for Developed Property, or the "Assigned Special Taxes," are specified in Section C of the Rate and Method of Apportionment.

B Termination of Special Tax

The Special Tax shall be levied for a period not to exceed 40 years commencing in fiscal year 2023-2024.

C Apportionment of Special Taxes

The special tax that is apportioned to each parcel is determined through the application of Section D of the Rate and Method of Apportionment. Section D apportions the special tax requirement in two steps which prioritize the order in which Developed Property and Undeveloped Property are taxed.

The first step states that the special tax shall be levied against each parcel of Developed Property at up to 100 percent of the applicable Maximum Special Tax. If the special taxes raised pursuant to the first step are less than the special tax requirement, then the second step is applied. The second step states that the special tax shall be levied against each parcel of Undeveloped Property at up to 100 percent of the Maximum Special Tax.

Application of the maximum special taxes under the first step generates special tax revenues of \$0 from Developed Property, leaving all \$708,391 to be levied against Undeveloped Property. Dividing this amount by the 1,641.37 acres of Undeveloped Property results in a tax of \$431.58 per acre of Undeveloped Property. The fiscal year 2024-2025 maximum and actual special taxes are shown for each classification of Developed Property and Undeveloped Property in the following table.

Table 3: Fiscal Year 2024-2025 Special Taxes for Developed Property and Undeveloped Property

Property Classification	FY 2024-2025 Maximum Special Tax	FY 2024-2025 Actual Special Tax
Developed Property	\$740.00/acre	N/A
Undeveloped Property	\$740.00/acre	\$431.58/acre

A list of the actual special tax levied against each parcel in CFD No. 2017-1 is included in Appendix D.

B. <u>ASSIGNMENT TO LAND USE CATEGORIES</u>

Each Fiscal Year, commencing Fiscal Year 2017-18, all Taxable Property within CFD No. 2017-1 shall be classified as Developed Property or Undeveloped Property, and shall be subject to Special Taxes in accordance with the rate and method of apportionment determined pursuant to Sections C and D below.

C. MAXIMUM SPECIAL TAX

1. Developed Property

The Maximum Special Tax for each Assessor's Parcel classified as Developed Property shall be equal to \$740 per Acre.

2. Undeveloped Property

The Maximum Special Tax for Undeveloped Property in CFD No. 2017-1 shall equal \$740 per Acre.

D. METHOD OF APPORTIONMENT OF THE SPECIAL TAX

For each Fiscal Year, commencing Fiscal Year 2017-18, if Bonds have been sold to a Third Party, then the Board shall determine the Special Tax Requirement following sale of Bonds to a Third Party and shall levy the Special Tax as described below. If Bonds have not yet been sold to a Third Party, then the Board shall determine the Special Tax Requirement for Bonds held by Bond Owner and shall levy the Special Tax as described below.

<u>First</u>: The Special Tax shall be levied Proportionately on each Assessor's Parcel of Developed Property at up to 100% of the applicable Maximum Special Tax; and

<u>Second</u>: If additional monies are needed to satisfy the Special Tax Requirement after the first step has been completed, the Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property at up to 100% of the Maximum Special Tax for Undeveloped Property.

Notwithstanding the above, under no circumstances will the Special Tax levied in a Fiscal Year against any Assessor's Parcel of Developed Property for which an occupancy permit for private residential use has been issued be increased by more than ten percent (10%) above the amount that would have been levied in that Fiscal Year as a consequence of delinquency or default by the owner of any other Assessor's Parcel within CFD No. 2017-1. To the extent that the levy of the Special Tax on residential property is limited by the provision in the

previous sentence, the levy of the Special Tax on all other Assessor's Parcels shall continue in equal percentages at up to 100% of the Maximum Special Tax.

E. <u>EXEMPTIONS</u>

No Special Tax shall be levied on the Exempt Property identified in Exhibit A.

In addition, no Special Tax shall be levied on Property Owner Association Property and Public Property.

F. APPEALS AND INTERPRETATIONS

Any property owner claiming that the amount or application of the Special Tax with respect to his or her Assessor's Parcel is not correct and requesting a refund may file a written notice of appeal and refund to that effect with the CFD Administrator not later than one calendar year after having paid the Special Tax that is disputed. The CFD Administrator shall promptly review the appeal, and if necessary, meet with the property owner, consider written and oral evidence regarding the amount of the Special Tax, and decide the appeal. If the CFD Administrator's decision requires the Special Tax be modified or changed in favor of the property owner, a cash refund shall not be made (except for the last year of levy), but an adjustment shall be made to the next Special Tax levy. Any dispute over the decision of the CFD Administrator shall be referred to the Board and the decision of the Board shall be final. This procedure shall be exclusive and its exhaustion by any property owner shall be a condition precedent to any legal action by such owner.

Interpretations may be made by the Board by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment.

G. MANNER OF COLLECTION

The Special Tax will be collected in the same manner and at the same time as ordinary *ad valorem* property taxes; provided, however, that CFD No. 2017-1 may directly bill the Special Tax, may collect Special Taxes at a different time or in a different manner if necessary to meet its financial obligations, and may covenant to foreclose and may actually foreclose on delinquent Assessor's Parcels as permitted by the Act.

H. PREPAYMENT OF SPECIAL TAX

The following definition applies to this Section H:

"Bond Redemption Date" means the redemption date pursuant to the Fiscal Agent Agreement for the Outstanding Bonds to be redeemed with the prepayment.

"Outstanding Bonds" means all Previously Issued Bonds which are deemed to be outstanding under the Fiscal Agent Agreement after the first interest and/or principal payment date following the current Fiscal Year.

"Previously Issued Bonds" means all Bonds that have been issued by CFD No. 2017-1 prior to the date of prepayment.

1. Prepayment in Full

The obligation of an Assessor's Parcel of Developed Property or Undeveloped Property to pay the Special Tax may be prepaid and permanently satisfied as described herein; provided that (i) Bonds have been issued and (ii) there are no delinquent Special Taxes with respect to such Assessor's Parcel at the time of prepayment. An owner of an Assessor's Parcel intending to prepay the Special Tax obligation shall provide the CFD Administrator with written notice of intent to prepay. Within 30 days of receipt of such written notice, the CFD Administrator shall notify such owner of the prepayment amount for such Assessor's Parcel. The CFD Administrator may charge a reasonable fee for providing this service.

The Prepayment Amount (defined below) shall be calculated as summarized below (capitalized terms as defined below):

Bond Redemption Amount

plus Redemption Premium plus Defeasance Amount

plus Administrative Fees and Expenses

Total: equals Reserve Fund Credit
Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount (defined below) shall be calculated as follows:

Step No.:

- 1. Confirm that no Special Tax delinquencies apply to such Assessor's Parcel.
- 2. Compute the Maximum Special Tax applicable for the Assessor's Parcel to be prepaid.
- 3. Divide the Maximum Special Tax, computed pursuant to paragraph 2, by the total estimated Maximum Special Taxes for the entire CFD No. 2017-1 based on the Maximum Special Taxes which could be charged in the current Fiscal Year in CFD No. 2017-1.
- 4. Multiply the quotient computed pursuant to paragraph 3 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (the "Bond Redemption Amount").

- 5. Multiply the Bond Redemption Amount computed pursuant to paragraph 4 by the applicable redemption premium, if any, as set forth in the Fiscal Agent Agreement, on the Outstanding Bonds to be redeemed (the "Redemption Premium").
- 6. Compute the amount needed to pay interest on the Bond Redemption Amount from the first bond interest and/or principal payment date following the current Fiscal Year until the Bond Redemption Date.
- 7. Determine the Special Taxes levied on the Assessor's Parcel in the current Fiscal Year which have not yet been paid.
- 8. Compute the minimum amount the CFD Administrator reasonably expects to derive from the reinvestment of the Prepayment Amount (as defined below) less the Administrative Fees and Expenses (as defined below) from the date of prepayment until the Bond Redemption Date.
- 9. Add the amounts computed pursuant to paragraphs 6 and 7 and subtract the amount computed pursuant to paragraph 8 (the "Defeasance Amount").
- 10. Verify the administrative fees and expenses of CFD No. 2017-1, including the costs of computation of the prepayment, the costs to invest the prepayment proceeds, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (the "Administrative Fees and Expenses").
- 11. If reserve funds for the Outstanding Bonds, if any, are at or above 100% of the reserve requirement (as defined in the Fiscal Agent Agreement) on the prepayment date, a reserve fund credit shall be calculated based on a reduction in the applicable reserve fund for the Outstanding Bonds, as set forth in the Fiscal Agent Agreement, to be redeemed pursuant to the prepayment (the "Reserve Fund Credit"). No Reserve Fund Credit shall be granted if reserve funds are below 100% of the reserve requirement.
- 12. The Special Tax prepayment is equal to the sum of the amounts computed pursuant to paragraphs 4, 5, 9 and 10, less the amount computed pursuant to paragraph 11 (the "Prepayment Amount").
- 13. From the Prepayment Amount, the amounts computed pursuant to paragraphs 4, 5, 9 and 11 shall be deposited into the appropriate fund as established under the Fiscal Agent Agreement and be used to retire Outstanding Bonds or make debt service payments. The amount computed pursuant to paragraph 10 shall be retained by CFD No. 2017-1.

The Prepayment Amount may be sufficient to redeem other than a \$5,000 increment of Bonds. In such cases, the increment above \$5,000 or integral multiple thereof will be retained in the appropriate fund established under the Fiscal Agent Agreement to be used with the next prepayment of Bonds or to make debt service payments.

As a result of the payment of the current Fiscal Year's Special Tax levy as determined under paragraph 7 (above), the CFD Administrator shall remove the current Fiscal Year's Special Tax levy for such Assessor's Parcel from the County tax rolls. With respect to any Assessor's Parcel that is prepaid, the Board shall cause a suitable notice to be recorded in compliance with the Act, to indicate the prepayment of Special Taxes and the release of the Special Tax lien on such Assessor's Parcel, and the obligation of such Assessor's Parcel to pay the Special Tax shall cease.

Notwithstanding the foregoing, no Special Tax prepayment shall be allowed unless the amount of Maximum Special Taxes that may be levied on all property in CFD No. 2017-1, both prior to and after the proposed prepayment, less expected Administrative Expenses, is at least 1.1 times the maximum annual debt service on all Outstanding Bonds.

2. Prepayment in Part

The Special Tax on an Assessor's Parcel located in CFD No. 2017-1 may be partially prepaid. The amount of the prepayment shall be calculated as in Section H.1; except that a partial prepayment shall be calculated according to the following formula:

$$PP = (P_E - A) \times F + A$$

These terms have the following meaning:

PP = the partial prepayment

 P_E = the Prepayment Amount calculated according to Section H.1

F = the percentage by which the owner of the Assessor's Parcel(s) is

partially prepaying the Special Tax.

A = the Administration Fees and Expenses from Section H.1

The owner of any Assessor's Parcel who desires such prepayment shall notify the CFD Administrator of such owner's intent to partially prepay the Special Tax and the percentage by which the Special Tax shall be prepaid. The CFD Administrator shall provide the owner with a statement of the amount required for the partial prepayment of the Special Tax for an Assessor's Parcel within thirty (30) days of the request and may charge a reasonable fee for providing this service. With respect to any Assessor's Parcel that is partially prepaid, the Water District shall (i) distribute the funds remitted to it according to Section H.1, and (ii) indicate in the records of CFD No. 2017-1 that there has been a partial prepayment of the Special Tax and that a portion of the Special Tax with respect to such Assessor's Parcel, equal to the outstanding percentage (1.00 - F) of the remaining Maximum Special Tax, shall continue to be levied on such Assessor's Parcel pursuant to Section D.

Notwithstanding the foregoing, no Special Tax prepayment shall be allowed unless the amount of Maximum Special Taxes that may be levied all property in CFD No. 2017-1, both prior to and after the proposed prepayment, less expected Administrative Expenses, is at least 1.1 times the maximum annual debt service on all Outstanding Bonds.

I. TERM OF SPECIAL TAX

The Special Tax shall be levied for a period not to exceed forty years commencing in Fiscal Year 2017-18.

^[1] Twenty-seven parcels are taxed at varying rates. Remaining parcels are taxed at \$66.00/parcel. Based on rates indicated in memorandum provided by Raftelis Financial Consultants.

Please see below for a brief explanation for each of the charges shown in the table above. For each charge, the same rates and methodology that were applied in FY 2023-2024 were used this year to determine the FY 2024-2025 charges. In addition, please refer to the annual administration reports for information regarding the FY 2024-2025 levy for Borrego Water District CFD Nos. 2007-1 and 2017-1.

Please see Exhibits A through D enclosed, which lists the assessor's parcel numbers and levy amounts for each of the charges shown in the table above. Please note that this memorandum will be updated once the final 2024 County Assessor's Roll becomes available from the County in July.

^[2] Three golf course parcels taxed at a total \$6,095.00. Remaining parcels taxed at \$2.50/parcel.

^[3] Two parcels owned by "LCDZ Investors, LLC" taxed at a total \$20,150.00. Remaining parcels taxed at \$37.70/parcel.

WATER AVAILABILITY STANDBY CHARGE (FUND 6415-01)

The funds raised by the Water Availability Standby Charge are used to pay for a share of the general administrative costs of the Borrego Water District. The levy is a per parcel charge applied to each parcel within the District except parcels within ID No. 1 (Ram's Hill) and ID No. 3 (Deep Well and La Casa del Zorro). The ID No. 1 share of administrative costs is collected through the ID No. 1 charge (Fund No. 6415-02) while ID No. 3 has a separate standby charge (Fund 6415-04).

The amount to be levied for the Water Availability Standby charge this year is calculated as follows: 3,580 parcels all of which are charged at \$22.80 per parcel for a total of \$81,624.00.

ID NO. 1 - WATER, SEWER AND FLOOD CONTROL (FUND 6415-02)

The funds raised by the ID No. 1 Water, Sewer, and Flood Control charge are used to pay for administration costs and water, sewer, and flood control services.

The amount to be levied for the ID No. 1 Water, Sewer, and Flood Control charge this year is calculated as follows: 679 parcels all of which are charged at \$66.00 per parcel for a total of \$44,814.00 and 27 other parcels charged at varying rates based on a study prepared by Raftelis Financial Consultants ("RFC") dated May 2, 2014 for a total of \$61,397.55.

The study describes the rationale for reducing the amount charged to certain non-residential parcels, golf course parcels, and other undeveloped parcels based on the current land use classifications of the parcels versus what was originally anticipated at the point of time that the availability charge was created.

As indicated in the study, RFC concluded that based on benefit, the amount charged to the parcels being charged \$66.00 per parcel should be increased and that the amount charged to the remaining 27 parcels should be decreased. However, since the District cannot increase a parcel's charge without going through a Proposition 218 ballot proceeding, the District has kept the \$66.00 per parcel charge unchanged from prior years and decreased the charge for the remaining 27 parcels beginning in FY 2015-2016.

PEST CONTROL STANDBY CHARGE (FUND 6415-03)

The funds raised by the Pest Control Standby charge are used to pay for eye gnat control services (not the biting gnat).

The amount to be levied for the Pest Control Standby charge this year is calculated as follows: 4,677 parcels all of which are charged at \$2.50 per parcel for a total of \$11,692.50 and three golf course parcels charged varying rates for a total of \$6,095.00.

ID NO. 3 WATER STANDBY CHARGE (FUND 6415-04)

The funds raised by the ID No. 3 Water Standby charge are used to establish reserves for system improvements related to the water wells and system storage. The amount to be levied for the ID No. 3 Water Standby charge this year is calculated as follows: 358 parcels all of which are charged at \$37.70 per parcel for a total of \$13,496.60 and one parcel owned by "LCDZ Investors" (formerly owned by "Copley Press") charged for a total of \$20,150.00.

If you have any questions regarding these charges, please do not hesitate to contact me at (949) 955-1500.

WHEREAS, it is now necessary and appropriate that this Board levy and collect the special taxes for the Fiscal Year 2024-2025 for the purpose specified in the Ordinance, by the adoption of a resolution as specified by the Act and the Ordinance; and

WHEREAS, the special taxes being levied hereunder are at the same rate or at a lower rate than provided by the Ordinance;

<u>SECTION 1</u>. The above recitals are true and correct. After adoption of this Resolution, the General Manager, or designee, may make any necessary modifications to these charges to correct any errors, omissions or inconsistencies in the listing or in the amount to be charged based on changes from the final 2023 County of San Diego Assessor's Roll.

SECTION 2. The special tax ("Special Tax") is imposed without regard to property valuation and is levied in compliance with the Mello-Roos Community Facilities Act of 1982, as amended, commencing with Government Code Section 53311 (the "Act") and the Ordinance.

<u>SECTION 4</u>. All of the collections of the special tax shall be used only as provided for in the Act and the Resolutions of Formation. The special tax shall be levied only so long as needed to accomplish the purposes described in the Resolutions of Formation.

<u>SECTION 6</u>. As a cumulative remedy, if any amount levied as a special tax for payment of bond interest or principal, together with any penalties and other charges accruing under this Resolution, are not paid when due, the Board of Directors may, not later than four years after the due date of the last installment of principal on the Bonds, order that the same be collected by an action brought in the superior court to foreclose the lien of such special tax.

SECTION 7. The General Manager is hereby authorized and directed to transmit a certified copy of this Resolution and the Report to the San Diego County Auditor, together with other supporting documentation as may be required to place said special taxes on the secured property tax roll for the Fiscal Year 2023-2024, and/or arrange for the direct billing of the special taxes, and to perform all other acts which are required by the Act, the Ordinance, or by law in order to accomplish the purpose of this Resolution.
